-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

Claims 38,48,49,53-55,65 and 66 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention and/or species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 08-15-2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-37,39-42,44-46,50,56-58,60-64,67-75 and 77-80 are rejected under 35 U.S.C. 102(b) as being anticipated by Kelman-5190552.

Kelman discloses an IOL injector for receiving an IOL with haptics 42. The IOL is placed on a seat 33 with the haptics placed into guiding surfaces 34 and when it is pushed forward by a lens guiding arrangement 10,14, the haptics are driven up ramped guiding surfaces 11. A handle attached to a pusher and the IOL cartridge act to inject the IOL into the eye. If an IOL, such as that disclosed by Walman in RE 34424, were placed into Kelman's inserter, the ramped guiding surfaces would cause the IOL haptics to move or orient to a less curved state because the ramps would engage 34 and slide up 36 causing it to straighten to a degree.

Art Unit: 3731

The guiding surfaces and guiding arrangement would operate as claimed depending on the type of IOL inserted and the specific type and shape of haptic employed.

Response to Arguments

Applicant's arguments filed 01-26-2007 have been fully considered but they are not persuasive.

As pointed out above, the claimed structure is found in Kelman's device and would operate as claimed if an IOL such as that disclosed by Walman were placed in the seat and pushed forward.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
